AERATED WATERS.

MANUFACTURERS OF

ERATED WATERS of our manufacture are sold throughout the Far East, and are invariably preferred on account of their excellence. ABSOLUTE PURITY is guaranteed.

The best materials only are used.

THE PRICES are only half those charged in England.

WATERS MANUFACTURED BY US BY acknowledged by the leading English makers to be equal to those of their own production.

SIR EDWARD FRANKLAND, K.C.B., D.C.L., F.R.S., F.C.S., &c. the greatest living authority on Water, reports as follows on the water as prepared and used by us in our manufacture:—

"It possesses an extremely high de-" gree of organic purity and is "of most excellent quality for

"drinking."

配流 During the Summer Months, all ERATED WATERS should be kept in a cool place, preferably in an THE CHEST OF REFRIGERATOR, until 3. S. Kilma and Trequired for use. The Bottles should be stored with the necks downward so that the corks are covered by the water. This will prevent an escape of gas taking place and rendering the waters more or less flat.

NOTES AND COMMENTS.

In commenting upon the reported assassination of the Emperor of China's few days ago we stated that we should not be the Godown of the hongkong and Kowloon surprised to hear that a Russian force was Wharf and Gudown Co., I Imited, at Wanchai. | moving on Peking to "preserve, order," and it now appears that such action is or month for discharging fireworks in prohibited has been contemplated and that Russia is I hours. undoubtedly at the back of the Empress Downger and her party. The China Gazette of the . 6th instant states :- "It is said that the Empress Dowager and Lk hung Chang have made an arrangement with the Russian Government under which a large force of Russian troops will be despatched from Port Arthur to Peking in case of need, that is if the coup detat proves dangerous to the new regime. It is learnt that six large Russian tr asports are held in readiness at Port Arthur where troops variously estimated at from four to ten thousand stand prepared for active service at a moment's

This statement is amply sufficient to explain the presence of the British fleet at Taku and also shows that Reuter's statement of the 25th instant, to the effect that the movements of the British fleet in China betoken serious action, is by no means without foundation.

With regard to the presence of the Japanese fleet off Vladivostock and the landing of Japanese troops at Fusan in Corea we have certainly had no confirmation of the news wired by our Tientsin correspondent, nor has it been contradicted. Upon enquiry at the office of the Imperial Chinese Telegraph Administration here we are informed that the lines to Tientsin are working very badly and that great delay is likely to That is to say that in all probability the lines are blocked with government messages and consequently it is impossible to get anything in the nature of news through for the present. For all we know to the contrary there may be two or three messages explaining the situation now on the way to us from our Tientsin correspondent, and the probabilities are that in the present state of affairs they will reach us several days late, as our previous ones have done, or possibly not reach us at all. Therefore the only thing that we can do is to patiently await direct news from the north without depending upon the Chinese Telegraphs.

The short interview with Kano Yu-wei which we publish to-day shows beyond a doubt that the abdication of the Emperor has not been a voluntary one; that he has really been deposed by the Empress Dowager and her following against his will, and that he looks to the British to protect him and the Empire from the machinations of his enemies. We fear, however, that it is already too late to hope the Emperor. The probabilities are that as Kang Yu-wzi fears he has already been

escape alive. Even were the British days, prepared to take the side of the deposed ruler and to attempt to re-instate him upon his throne we very much doub If there is a sufficient military force avail able to attempt it. Russla has, we are told, from four to ten thousand men ready at a moment's notice to proceed to Peking and uphold the Empress Dowager, and we fear that all the British can do is to attempt to prevent their landing by the presence of the fleet in the Gulf of Pechill It looks very much as though Lt Hung. CHANG and the Empress Dowager had successfully forced Britain's hand by placing her in such a position that she will be obliged either to humble herself before Russia or resist her aggression by force.

A CHAIR coulle in the employ of Mr. Gedge at

Victor's Gap was charged with behaving in a disorderly manner. He had, it was alleged left a chair in the road and when a ked to remove it by a constable he "curred his grandmother," Mr. Gedge appeared for the defence Besides using filthy language defendant and another coelle struck bim with the chair and slio wich fiste. The other man ran away. Gedge spolled for a remand and his Wor. ship refused the request, saying the constable had given his evidence to a perfectly straight. forward manner, and that if wilnesses were called it would do the case no good. He, however, allowed one witness to be called for the defence. Mr. Gedge said the Indian police were rotoilous lists. Seigt. Scott drew his worship's attention to this and Captain Hastingssaid it was bighly discrecitable language indeed and should not have been used, whereupon Mr. Gedge made an ample apology. The other chair coolie then gave evidence as to where the chair upon him that he had attempted to murder the one round and to complete it in the first fortwas left while they went to a tea stall. The constable kicked the chair, defendant remonstrated and the constable struck him with his s aff and his fist and then arrested him. The witness denied the bad language. The box of high officials in the central and Southern pro- hold the extenordinary general meeting menthat British protection can be extended to the chair was broken by the constable. > THE colonisation of the the Amur Valley scarcely promises to be a success. In the commencement of 1895, there were were, it seems, 390 individual landowners in the Amur region, holding 38 455 desystines. Now there are only 70 propriefors, who hold 7,678 dessyntines.

> INFORMATION has reached the India Office of a request on the part of the Slamese Government for the "loan!" of officers for a term of three vears to organize an Accountants' Department at Bangkok. Both France and Russla have eff, red officers for the purpose, but the Slamese Government prefer, apparently, to have Biltish officers with Indian experience.

A SEMI-OFFICIAL communique la the St. Peter shurg Zeitung contradicts the statement that sta ement that Russia contemplates the occupation of the barbour of Rahelts and says that Russia is not negotiating with any foreign Power with reference to this matter. The newspaper adds that should Russia at any time require a harbour or coaling station on the Red Sea for its numerous ships proceeding to and from the Far neither to endanger the general peace nor her good selations with friendly Powers.

Two coolies were to-day charged with assaulting a cook who wes drawing water near the Public Guidens. One defendint bit him on the left side of the head with a brick and the other struck him with a brick on the shoulder. The defendants were incited by their master to prevent complainant drawing water. The arresting constable produce the bricks which were heavy enough to have killed any ordinary man. Evidence war given to kind withat both parties had quartelled and that complainent was pushed aid fell when he picked up the bricks and said he was hit with them. Defendants were fined \$5 and \$1 compensation.

NO PUBLIC MEETING.

As will be seen by an idvertisement in ou mldday extra to-day Lord Charles Beresford, who arrived this morning by the P. & O. S. S. Parramatta, notified that he could not at this stage address a public meeting here. His Lordship said that to the Deputation that waited upon him he expressed his deep regret that he did not feel himself at liberty until a later period to address any Public Meeting in China His Lordship at the same time expressed his hearty thanks for the public welcome it was intended to offer him. At present Lord Charles is the guest of the Officer Administering the Government, H.E. Major-General Black and he leaves for Shanghai by the Parramatta at Q s.m. lo-morrow. Many residents, were much disappointed at the meeting being declared off but we hope to have the pleasure, of hearing the gallant lord deliver an address in Hongkong

*KANG YU-WEI IN HONGKONG.

The P. and O. liner Balloaras arrived in harbour at 8.15 last night, the escort, H.M.S. Bonaventure, coming in about helf an hour sooner. The mail boat was met outside the herbour by a police launch carrying with Captain Superintendent May, Mr. J. Dyer Ball Protestor of Chinese, some police officers and Mr. Ho Tung, who is an old friend of the lugitive Kang Yo-wel. Captain May took over charge of Mr. King from the Captain of the Ballaarat and he was shortly afterward transferred to the police launc's and landed quictly at a spot where he would be least likely to attract attention. Captain May and his officers escorted Mr. Kang to the Central Police Station where comfortable quarters were assigned to him.

Seen by a Special Correspondent of the Globe shortly after his arrival Mr. Kang expressed himself as deeply grateful for the protection so promptly and thoroughly extended to him by the British Government and he stated that the reason for his precipitate flight from Peking was due to the fact' that His Mejesty the Emperor sent a message to him (Mr. Kang) to the effect that he (the Emperor) knew a plot had been arranged by the Conservative Party to depose him and kill off the leaders of the Reform Party. flee from Peking at once and use his test en- and officers are ex-officio members of the com- the humanitarian views of the Tax; express a deavours to quickly obtain protection and help mittee. for the Emperor and his Empire. THE PERING CRISIS.

RAMARKABLE FORECAST.

A Correspondent in Peking, who has exceptional means of keeping himself informed of the scenes behind the scenes in the evil-smelling capital of the Celestial Empire, writes under date 15th instant forecasting the troubles that resulted in the "moonlight flit" of the placky, patriotic and soulous Reformer who is now, as reported in another column, here in periect safety und the aegis of the flag of Freedom, that indestructible emblem of Liberty and Justice wherever is planted. In the course of his interesting letter the correspondent says :--

The Edict dismissing Li Hung Chang only states the fact ; no cause is assigned. Foreigncis state that it was brought about by the British Government single-handed; but Chinese who are "in the know" say Chang Yin Huan and his paritisans had a big hand in the business. Chang and his pirty were strongly opposed to the Belgian Loan, while Li Hung Chang was determined it should go through, being repeatedly urged by the Russian Minister to hasten the conclusion of the contract. The friction orcasioned by the struggles of Chang to prevent the Loan being fixed and of Li alliances; it is the better to guarantee peace to put it through regardless of the consequences ended in a violent quarrel between the two leaders, but as Chang was of inferior rank to Li the letter succeeded in causing the Tsunell Yamen to seal, sign and deliver the

contract to the alleged Belgian syndicate. Since the "breeze" with Li Hung-chang the Emperor, being informed of the plucky resistance of the Progressive Leader, showed his approval of Chang's policy by inviting him to audiences frequently. This enraged Li and the Empress Dawager who made no attempt to bide their annoyance and je-lonsy of Chang. They are working hard to secure his downfall from Imperial favour and it is probable they will succeed. If the Empress Issuccessful, poor Chang

will probably be beheaded. At present the Emperor is having his own way, and to show how strong-minded he is and that he is capable of formulating and sticking to a policy a recent incident is worthy of mention : Worg Wen Shao (late Viceroy of Chill) of the four officers of the Board of Ceremonies who had been dismissed by His Majesty. INTERNATIONAL DISARMAMENT.

THE ISAR'S PROPOSAL.

The Emperor of Russia has based an invitation to the Gavernments to meet in conference to consider a basis for the disamment of the nations. The text of the Tsac's message, which was published in the St. Petersurg Official Marsangar, is un tollows :-

By order of the Tsar, Count Muraviell a 24th ult, handed to all the foreign representatives accredited to the Court of St. Petersburg the following communication :--

"The maintenauce of general peace and a possible reduction of the excessive armaments which weigh upon all nations present themselves in the existing condition of the whole world as the ideal towards which the endeavours of all Governments should be directed. The human!tarian and magna- imone, ideas of his Mejesty the Emperor, my august master, have been won over to this view. In the conviction that this lofty aim is in conformly with the most essential interests and the legitimate views of all Powers the Imperial Government thinks that the present moment would be very favourable to seeking by means of international discussion the most effectual means of ensuring to all peoples. the benefits of a real and durable peace, and, above all, of putting an end to the progressive development of the present armaments.

"In the course of the last twenty years the longings for a general appeasement have grown especially pronounced in the consciouses of civilized nations. The preservation of peace has been put forward as the object of international policy. It is in its name that great States have concluded between themselves powerful that they have developed in proportion hitheres unpricedented their military forces, and stell continue to increase them without shilaki. g from any sacrifice. All these efforts, nevertheless, have not yet been able to bring about the beneficent result of the desired pac'ficution. The financial charges following an upward march strike at public prosperlty at its very source. The intellectual and physical strength of the nations, labour and capital, are for the major part diverted from thide natural application and unproductively consumed.

Hundreds of millions are devoted to requiring terrible engines of destruction which, though to-day regarded as the last word of science, are destined to-morrow to lose all value in consequence of some fresh discovery in the same field. National calture, economic progress, and the production of wealth are either parelyred or how determined to demonstrate to the world checked in their development. Moreover, in proposition 'as the symmetric of each Power increase, so do ther less and less faifil the object which the Governments have set personally interceded with the Emperor le behalf before themselves. The economic crises, due In great part to the system of armaments a outrance, and the continual danger which lies in this masting of war material are transfere leg in any way, and as Wang persisted in urging the the armed peace of our days into a cruchleg burdes which the proofe have more and more d fficulty in brazing. THE EFFECTS OF THE TSAR'S MUSSAGE.

The Tsac's message created a great sensation smorg the diplomatists who were not in the secret. It was a complete surprise to three of the Powers-Great Bilialo, Italy, and Tarkey. Support for it had, it is said, been obteined, in advance by two Powers. One, it goes almost without saying, was France, the other Austria. The German Emperor had been personally made sequainted with its purport. He, however, had reserved his opinion. The Tsar's proposal is recognised by diplomatians as the revival of a preject of the Emperor Alexander III., which was communicated to the Emperor Frederick some time before his deate, but was not then encoted publicly because of the passionate state

The chief note in the opinions expressed The Chairman observed that the report had by all classes in London on the Tear's

What will come of this most Important Circular it is impossible as yet to foresee; for the present we can only welcome it as a magnanim. ous proposal, worthy of the greatest of the world's autocratic Sovereigne. So far nothing has been Issued from St. Petersburg except the Circular stready published, and not the slightest hint has reached the Embassies as to the practical prepossis it is intended to submit to the projected Congress. It was a me days ago, when the Emperor announced his fairntion to promulgate a decree in faveur of some form of the Christalm feligion throughout the Empire, to grant permission to the Chinese people to charge their present distinctive mode of dreer, to liberate them from the custom of squeezing the feet of their women, and of the dressing the hair of their men in queves that the Empress and her advicers broke out into an overwhelming storm-of rage; and Kang Yu-wel believes that this was the slonal for the Emperor's averthrew. Kang Yu-wel, needless to say, indignantly denies the whole latery of his . administering medicine to the Emperor in any form, which itatement is obviously an invention of those who wished to bring about his destruction. When he left Peking on the 20th instant, which he did on a hint from his Imperial Master, that it would not be conduc've to his safety to remain longer at the Capital, Li Hung-chang was apparently a factor of but little consequence in State affairs. But Jung-lu the Vicercy of Chihll was hand in glove with those who opposed the Emperor. What has happened since is no more within Kang Yu-wel's knowledge than within that of any other man here, but he believes that the Empress Downger's most trusted adviser has always been and still is Li Hung-chang, and naturally she would take Li's advice and follow his directions in such a coup d'état as she bas now brought about.

(Signed) Mrs. Ann Woollett, Wheeler's Lane, Linton, near Maidstone, Jan. 16, 1894."

We do think Mrs. Woollett's letter will do good and so you find it printed-here. Now, there are a great many old people in this country, some of them perhaps even older than she. And they need a gentle and good medicine like Mother Selgel's Syrup. Old age is a time when life is apt, to seem a heavy thing to bear, particularly if there is more or less pain and illness. And this is sure to be the case. The stomach gives out. Old people can't digest as they once did. Their food sours and ferments in the stomsch, and makes all those bad feelings that Mrs. Woollett herself had. And when they cannot eat and digest their food, of course they get weak and feeble, and have to lie in bed or sit in the corner, unable to take the six and go about for necessary exercise. Then they get to thinking they are in the way, and grow down hearted and low-spirited. Besides, they are likely to at 9.45 of the clock in the Forencon. be troubled with rheumatism, which is a complaint peculiarly common to old people, and comes from a bad digestion.

Now, for curing and mitigating the ailments of old people, there is nothing in the world so good as Mother Beigel's Syrup. It doesn't sicken them and tear them all to pieces as some harsh medicines do. It operates gently and thoroughly; it doesn't make them worse before it makes them better. For indigestion, dyspopsis, rheumatism, and all the sches, pains, and discomforts of age, it is just right.

Mother Seigel, who discovered it, knew what her elderly friends needed-nobody better. . Well, we can't go back to 1814, and we don't want to. In spite of all the growlers and grumblers, we are better off where we are. In 1814 Mother Beigel's Chinese-18th of 8th moon of Shik year of Byrup was never heard of; It didn't exist. But everybody knows it in 1894. It is one of the great and good things of this end of the century .- Adv.

THE NEW FRENCH REMEDY.

This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed.

THERAPION No. 1, in a few days only, | searched for. removes all discharges from the urinary organs, effectually superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases, In dysentery, plies, irritation of the lower bowel, cough, bronchitis, asthms, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief where other well-tried remedies have been powerless.

THERAPION, No. 2, for impurity of the blood securvy, pimples, spots, blotches, pains and swellings of the joints, secondary symptoms, disease of the bones, sare throat, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the dertruction of the sufferer's teeth and rule of health. This preparation purifies the whole system through the blood, and throughly eliminates every poisonous matter from the body.

THERAPON; No. 3, for nervous exhaustion, waste of vitality, and all the distressing consequences arising from early error, excess, residence in hot, unhealthy climates, &c. It posseses surprising power in restoring strength and-vigour to the debilitated.

THERAPION may be procured at 2/9 and 4/o per package, of the principal Chemists and Captain Norman, will be despatched as above THE Company's Steamship Merchants throughout the world. In ordering, on or about WEDNESDAY, the 5th October, the purchaser should state which of the three instead of as previously advertised. numbers he requires, and observe that the word THERAPION " appears on the Government, Stamp (in white letters on a red ground) affixed to every genuine package by order of Her Majesty's Hon.
